Sir:

AMENDMENT AFTER FINAL

REMARKS

The applicant has received and reviewed the office action of May 16, 2006 and in response to the suggestion of Examiner Stahl submits the following amendment placing claims 1-14 in to allowable condition. In addition the applicant cancels claims 16-18 and 20 to put the application into allowable condition.

More specifically claim 1 “moveable” has been changed to “moveably” claim 10 the spelling of positionable has been corrected and in claim 14 “mounted” has been changed to “mounting”. In addition “transvere” has been changed to “transverse” in claim 4.

The applicant apologizes for the marking errors and thanks the examiner for making of record that certain portions of the underling and strike through had been left out in claims 10 and 14 and that the examiner reviewed the claims based on the claims as presented in the response of 2/28/06.

As unallowed claims 16-20 have now been canceled, accordingly, it is submitted that remaining claims 1, 4, 5, 6, 10-12, 14-15 are all now in a condition for allowance and a notice of allowance is respectfully requested.
